Disputes over solar panels for power generation

Overview

As of August 2025, we've crossed a major milestone: over 3,000 active cases. That's 3,000 homeowners standing up to lenders over unfair solar panel loans. Hundreds of these cases are already in arbitration, moving through discovery and scheduling. Another is thin-film solar panels, which use a second-generation technology with cells manufactured using a single or multiple layers of PV elements. Alex Potemkin / Getty Images More than 20 states sued the Environmental Protection. In recent years, solar energy has been promoted as a sustainable solution to reduce carbon footprints and lower energy costs. But with this expansion, has come an increasing number. Nature of Disputes in Solar and Renewable Energy Retrofitting Retrofitting in renewable energy projects often involves upgrading existing solar PV installations, wind turbines, or hybrid systems to improve efficiency, comply with new standards, or integrate with smart grids.
