

120kWh Energy Storage System Integration

Overview

The EverCore range debuts with two flagship configurations: a 100/120 kWh system paired with Solis' 50 / 60 kW hybrid inverter, and a larger 261 kWh model supported by the Solis 125 kW hybrid inverter — both combining inverter, battery, and energy management system (EMS) technology. The EverCore range debuts with two flagship configurations: a 100/120 kWh system paired with Solis' 50 / 60 kW hybrid inverter, and a larger 261 kWh model supported by the Solis 125 kW hybrid inverter — both combining inverter, battery, and energy management system (EMS) technology. Madrid, Spain - November 12, 2025 - Solis, one of the world's Top 3 inverter manufacturers, today announced the launch of EverCore — the company's first all-in-one commercial and industrial (C&I) energy storage system. The EverCore range debuts with two flagship configurations: a 100/120 kWh system. Combining high-performance batteries and a hybrid inverter into a single, compact cabinet, this all-in-one architecture minimizes footprint and complexity. LFP batteries, redundancy design. The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation. Global Compatibility: Supports 400VAC ($\pm 10\%$) grids and international standards. Multi-Layer Safety: Combines AI-driven BMS with fire suppression to fully protect your assets. Smart Management: Embedded.

120kWh Energy Storage System Integration

LFP Battery Pack , Solar Storage Solution

The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation works with energy ...

24-60kW 48-120kWh Modular Battery Storage System

The AceOn Stack 24-60kW 48-120kWh modular battery storage system is fully integrated with a 3 phase inverter that can operate on or off grid, up to 10 battery storage modules and an energy management ...

Energy Storage System-Hybrid Energy Storage Solution

Powerful 50KW/120KWh hybrid energy storage solution with integrated inverter, BMS & EMS. LFP batteries, redundancy design. Expandable up to 120KWh.

Tensorpack M-Teplora

Tensorpack M120 Energy Storage System The Tensorpack M120 energy storage product integrates a 50kW Hybrid inverter and a 120kWh battery system, engineered specifically for micro-grid ...

120kWh Micro-grid Air-cooled ESS , All-in-One C& I Battery Energy

The 120kWh Micro-grid Air-cooled ESS is a fully integrated, all-in-one battery energy storage system designed to meet the evolving demands of commercial and industrial energy storage (C& I ESS).

Combine 120kWh All-in-one AC/DC Energy Storage System

Combine Tech is committed to developing advanced energy storage solutions to integrate the power grid, solar energy, traditional diesel generators or solve energy anxiety through convenient mobility in ...

120KW/225KW Battery Energy Storage Systems

This system integrates high-density batteries and power conversion into a single enclosure. It delivers 125 kW continuous output and 225 kWh capacity for high-demand applications.

Sungrow 120kWh Energy Storage

System, DAT Solar

Power storage solutions for commercial and industrial projects (ESS) with a wide capacity range from 50 kW to 1 MW, with multiple power storage configuration options from 2 to 5 hours.

[Solis Launches EverCore An All-in-One Inverter, Battery and EMS](#)

Designed for performance, safety, and scalability, EverCore enables companies to cut energy costs, strengthen resilience, and participate in new energy markets through demand ...

[Deye 120kWh All-in-One High Voltage Hybrid ESS - C& I Energy ...](#)

With integrated inverter, battery, EMS, and BMS, plus advanced safety features and off-grid capability, it offers reliable power security, energy cost optimization, and black start functionality.
