

# 500kWh Photovoltaic Folding Container for Water Plant

## Overview

---

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates. This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations. Rapid deployment, high efficiency, scalable energy storage, remote monitoring support. It features a three-level battery management system that ensures robust protection against overcharging, over-discharging, and over-voltage. What is HJ. As energy challenges grow, our solar container solution was created to meet the need.
