

6mm solar glass

6mm solar glass

China commercial curtain wall glass factory

Through the application of vacuum coating, the finished product characterizes various visual effects and different optical and calorific features. This is an ordinary clear float glass with a metallic coating to ...

6mm solar glass

6mm solar glass (9525 products available) 6mm Solar Panel Low Iron Tempered Glass \$ 3.00 - \$ 10.00 Min. Order: 500 square meters

Pilkington Solar-E(TM)

They provide attractive solutions to various applications where good light transmittance with enhanced solar control performance is required. Thanks to their low exterior light reflectance the products are ...

[6MM Low E Glass, 6MM Solar Control Low E glass, 6MM Low E ...](#)

Low-E glass has a high transmittance of sunlight in the visible light, up to 80% or more. While the reflectance is very low, which makes it compared with the traditional coated glass, optical properties ...

Solarbronze Technical Product Data

PRODUCT DESCRIPTION at deepens as thickness increases. In a 6mm thickness, Solarbronze® glass provides 53% visible light transmittance, with a solar heat gain coefficient 0.60 for improved solar ...

[6mm low emissivity glass China manufacturer, 6mm Low E glass ...](#)

Low-E glass has a high transmittance of sunlight in the visible light, up to 80% or more. While the reflectance is very low, which makes it compared with the traditional coated glass, optical properties ...

6mm Clear Solar Reflective Glass

Discover 6mm clear solar reflective glass with solar control technology, ideal for curtain walls and windows. CE certified, durable, and energy-efficient.

Pilkington Solar-E(TM) & Pilkington

Solar-E(TM) Plus

Can be used in monolithic form or incorporated in insulating glass units, and has an unlimited shelf-life. No edge deletion required. Available in the following thicknesses: Pilkington Solar-E(TM) Clear in 3, 4, ...

6mm Superb High-performance Solar Control Glass Energy-efficient ...

Solar reflective glass allows natural daylight through, keeping the room bright, and blocking infrared and UV rays light. It makes the room stay cooler during hot and sunny days, meanwhile reducing the ...
