

Austria container power generation manufacturer

Overview

The Power:Container is an autarcic energy supply without the necessity of an electrical grid connection. With this efficient and climate friendly concept Ge:Net GmbH offers a wide range of new applications - specially for remote sites. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, our genset containers offer optimal performance in various site conditions. Easily and quickly installed and commissioned, they save space and are tailored precisely to customer specifications. After 16 years of container production in Hungary, they now are being produced again at. Hitachi Energy has completed and handed over to VERBUND, Austria's biggest power generator, the world's first static frequency converter (SFC) solution to use modular multi-level technology. At our Green Factory, we provide you with extensive manufacturing and production services for mobile. Brand new or refurbished gas engines with electrical output up to 3.3 MW can be used, as well as various engine manufacturers such as MWM, Jenbacher, MTU or MAN.
