

Black Solar Power Generation Policy

Overview

In 2018, the NAACP launched the Solar Equity Initiative (SEI) to increase solar installations in communities of color and to connect these communities to skills training for solar jobs, all supported by strengthened solar equity policies. The Initiative is centered on the civil, economic, and B. is the nation's largest network of underrepresented professionals in the solar photovoltaic (PV) industry. Our members include entrepreneurs, financiers, veterans, attorneys, engineers, contractors, developers, and other industry leaders. collaborates with for-profit, non-profit. From Detroit's Soulardarity to D. 's Groundswell to Florida's EMPOWER coalition, Black-led efforts are creating community-owned solar, lowering energy costs, and building local power in every sense of the word. At Vote Solar, we know that those closest to injustice are closest to the solutions. Matthews, Founder and CEO of Uncharted Power Uncharted Power is a power access. The Uncharted System specializes in creating a resilient, upgradable, and cost-effective "Internet for Decentralized Energy" by connecting energy sources and applications like sensors, edge devices, and ICT hardware right under our feet. Uncharted Power has raised \$7 million, the largest Series A. As we celebrate Black History Month, the Solar Energy Industries Association (SEIA) is focused on uplifting the work of Black leaders, delivering resources to improve representation, and advocating for policies that address the inequality in our energy systems.
