

Brunei electric vehicles evs

Overview

Brunei Darussalam, a nation historically dependent on hydrocarbon resources, is making a decisive pivot towards sustainable transport, directly challenging its status quo in pursuit of a low-carbon future. The key driver of this transformation is the ambitious promotion of electric vehicles (EVs). In fact, the demand for green cars is increasing every year. Electric vehicles are one of the projects of Brunei.

Brunei electric vehicles evs

Brunei Climate Change Secretariat

This strategy seeks to reduce Brunei Darussalam's carbon emissions from the land transportation sector by increasing Electric Vehicles (EV) to 60% of total vehicle sales by 2035.
