

Cameroon government s commitment to solar power

Overview

During the Renewable Energy Promotion Forum in Cameroon on May 3, Gaston Eloundou Essomba, the Minister of Water and Energy (Minee), announced the government's ambition to increase the share of renewable energy (hydroelectric, solar, wind, biomass, geothermal, etc.) to 25% of the electricity mix by 2025. Cameroon will construct two solar power plants in Ngaoundéré and Maroua by 2025. Funded by the European Union, the project aims to generate 30 MW of clean energy to boost the country's electricity supply. 8 Megawatts of solar and 19 Megawatts/hour of storage on batteries to 64. The plants will be located in Maroua and Guider.

Cameroon government s commitment to solar power

[Cameroon to Develop 4GW Renewable Energy by 2035 in Major ...](#)

Cameroon will develop 4GW of renewable energy by 2035, focusing on solar, wind, and hydropower projects to meet critical power needs and promote sustainability.

[Green Innovations: Renewable Energy and Sustainable Practices in Cameroon](#)

Cameroon's government has set targets under its Nationally Determined Contributions (NDCs) to achieve 38% renewable energy share in total electricity consumption by 2030.

[Cameroon government shifts to solar energy as an alternative to ...](#)

In November 2023, the Cameroon government signed a cooperation agreement with China that will see solar energy plants constructed in 1000 rural areas of the country. Currently, the ...

Project Zero: Harnessing solar energy in Cameroon

Interventions included the deployment of on-grid solar systems, hybrid generator/battery solutions, and air conditioning upgrades to optimise energy consumption and emission reduction ...

[Government to Construct Two Solar Power Plants in Cameroon's ...](#)

The Cameroon government will begin construction on two solar power plants in the North Region starting in July 2025. The announcement was made by Minister of Water and Energy Gaston ...

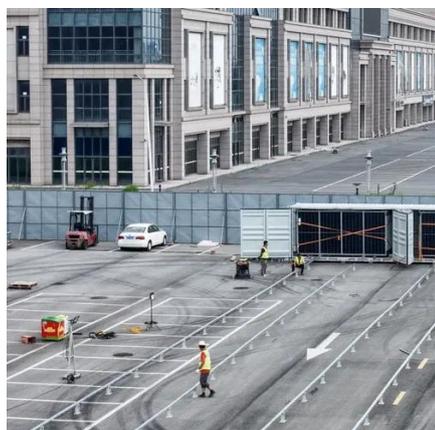

[Cameroon's journey toward affordable, reliable, and universal](#)

The country is striving to green its electricity generation mix by advancing solar PV development, with the target of 250MW installed capacity. Expansions are underway at existing solar ...

[Cameroon to Build Two 30 MW Solar Power Plants by 2025](#)

Cameroon will construct two solar power plants in Ngaoundéré and Maroua by 2025. Funded by the European Union, the project aims to generate 30 MW of clean energy to boost the ...

[Policy-driven expansion of renewable](#)

[energy in Cameroon: A ...](#)

Key findings reveal a substantial increase in off-grid installations in underserved regions and a notable rise in grid-connected solar capacity--from 0 MW in 2015 to 63 MW by 2024--driven ...
