

# Change to 2v solar container lithium battery pack

## Overview

---

Perfect for professionals and DIY enthusiasts alike, this guide will walk you through the step-by-step process of setting up your Huawei Luna2000, ensuring that you correctly and safely install the battery packs in the container. What I'm wanting to use this battery for is mainly to charge other batteries in a portable solar charging setup I have for when I go camping. The solar panel is 52V for the 52V e-bike so I can't use it with anything but a 52V battery. Preparation is Key: Before replacing solar batteries, gather necessary tools such as a socket. Learn how to install a battery pack in the Huawei Luna2000 200kWh battery container with our detailed tutorial video. We provide safe, well-designed and high-performance standard LFP battery packs for you. You may already be familiar with brands like Bluetti, Jackery, or EcoFlow and their bestselling product — the solar generator.

## Change to 2v solar container lithium battery pack
