

Chile s energy storage project is underway

Overview

Chile is set to surpass its 2050 energy storage targets in just four years, with projects underway to add 1,800 MW of capacity by 2027. Ensuring projects are paid for injecting power into the grid during peak periods has supported growth, and ambitious battery energy. Chile's energy storage sector is experiencing significant growth, as outlined in the latest "Report on Projects Under Construction and Investment in the Energy Sector" by the Chilean Ministry of Energy. Chile has strong conditions for wind and solar energy, and is pursuing storage to help overcome intermittent supply (Image: Ximena Navarro / Dirección de. During the opening address of Energy Storage Summit Latin America 2025, in Santiago, Chile, the Chilean Minister of Energy Diego Pardow Lorenzo said the country was most likely set to surpass its 2050 targets in 2027.

Chile's energy storage project is underway

Battery Energy Storage Systems (BESS) in Chile

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged as a profitable alternative for Chilean ...

Chile moves on storage to 'decarbonize the night'

Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022.

[Chile makes progress on energy storage with 20+ approved projects](#)

The technological diversity of energy storage projects in Chile is remarkable. From battery storage systems to innovative projects with gases such as CO₂, the country is exploring different solutions to meet changing ...

[Chile to reach 2050 energy storage target within next two years, says](#)

During the opening address of Energy Storage Summit Latin America 2025, in Santiago, Chile, the Chilean Minister of Energy Diego Pardow Lorenzo said the country was most likely set to surpass its ...

[Energy storage is a challenge and an opportunity for Chile](#)

Having launched a national storage strategy in 2023 that sets targets and aims to attract investment in the sector, and with a large pipeline of projects on the way, Chile's installed storage capacity ...

[US\\$600mn Chile energy storage project targets curtailment](#)

The principal component is a 440MW battery energy storage system.

[Chile Already Halfway to 2 GW Energy Storage Target](#)

By the end of March 2025, the country had 954 MW of operational energy storage capacity, representing 48% of its national target of 2 GW by 2030. This progress highlights Chile's commitment to ...

Chile energy storage: Impressive

2027 Goal Achieved

Chile is set to surpass its 2050 energy storage targets in just four years, with projects underway to add 1,800 MW of capacity by 2027.

[Chile's Energy Storage Boom: Why Acciona's 1GWh Battery Project ...](#)

Acciona Energia's decision to retrofit their Chilean solar plant with a massive 1GWh battery system isn't just another project announcement--it's a glimpse into how rapidly the energy storage market is ...

Chile Energy Storage

Currently, 36 of the 129 large-scale projects Latin America projects with an energy storage component under development are in Chile, including 32 out of 71 of the region's early works projects. The ...
