PUSUNG-R (Fit for 19 inch cabinet)

Overview

This isn't just a battery; it's a fully integrated power fortress, combining a massive 120kWh LiFePO4 battery bank, a powerful 50kW inverter, and a sophisticated thermal management system within a single, ruggedized outdoor cabinet. It also includes protection systems, environmental control systems, and fire control systems. Its primary use is self-generation and self-use, and surplus electricity storage. When the power generated by photovoltaic power generation is not needed, it can be stored in the battery bank. Its modular architecture allows flexible deployment for a range of applications, from commercial to industrial. Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy needs. HBOWA PV energy storage systems offer multiple power and capacity options, with standard models available in 20KW 50KWh, 30KW 60KWh, and 50KW 107KWh configurations. You can add many battery modules according to your actual needs for customization. Individual pricing for large scale projects and wholesale demands is available. The battery cabinet has 2*50KWH (51.
