Cost of a 20kW outdoor telecom enclosure for ports

Overview

Prices for outdoor telecom cabinets as of 2025 can run anywhere from $900 to $5,000, depending on design, materials, and integrated systems. Let's break that down: Why such a wide range?

Because not all cabinets serve the same function. What is an outdoor telecom cabinet?

Before jumping into costs, let's clarify what we are. Charles Universal Broadband Enclosures (CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments. Designed to house a variety of communications equipment, CUBE customers take advantage of our engineering and factory integration for. Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. 5 billion by 2028, driven by 5G infrastructure expansion and smart city initiatives. Key industry developments include rising demand for IP65+ rated enclosures due to extreme weather. Westell is a collaborative partner in OSP deployment optimization providing customized, fully integrated, vendor neutral outdoor network equipment enclosures. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.
