

Crystal ball-like solar generator

Overview

The betaray crystal sphere is a weatherproof glass ball which concentrates sunlight and moonlight into an intense beam that can generate electricity up to 70% more energy than solar panels. A German architect with a clear artistic flair has applied his incredible talent to the creation of a crystal ball that generates power. It sounds like something out of a traveling carnival, but the beta. ey, as it's been named by its creator, is functional as well as eye-catching. The sphere can be. Crystal balls have been telling fortunes in fairgrounds for many years, but this Spherical Sun Power Generator could be the future of solar energy. Rawlemon's spherical solar energy-generating globe looked a lot like a giant glass marble on a robotic steel frame, but there was nothing raw about what it achieved: the sun-tracking. Solar panels may be replaced by light-catching spheres if innovation company WAVJA's ingenious contraptions fulfill their potential.

Crystal ball-like solar generator

[Rawlemon: the revolution in solar harvesting with transparent spheres](#)

After several years of development, the solar collector Rawlemon begins his commercial career. Created by the German architect André Broessel, it is a transparent ball filled with water capable of converting ...

Spherical Sun Power Generator

This generator will combine spherical geometry principles with a dual axis sun tracking system. The glass sphere is used to concentrate diffused sunlight into a small surface of tiny solar panels.

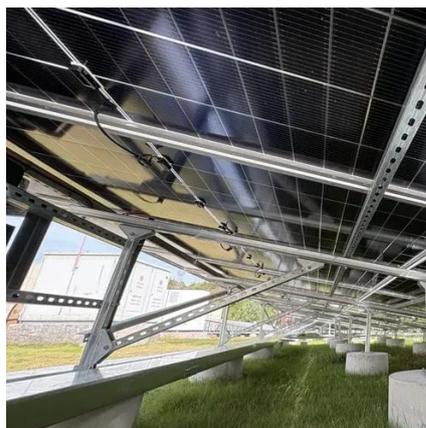

[Crystal Ball Solar Concentrator Sees Bright Future in Solar Power, ...](#)

German architect André Broessel of Rawlemon has invented a solar energy system that uses a simple concept - a glass sphere that concentrates light on a focal point - to maximize solar ...

[Tech company unveils tiny spheres that outperform solar panels using](#)

That's because the business, which has operations in New York City, says its experts have created tiny globes -- from a little more than an inch to nearly 4 inches in size -- that can harness ...

Say goodbye to solar panels with this sphere -- 1,1 kWh a day free in

The spherical generator works by using a large transparent sphere to focus sunlight onto a small surface area of mini-solar panels. Efficiency is enhanced because the solar panels used in ...

Betaray Crystal Sphere Solar Energy Generator Harvests Energy ...

The betaray crystal sphere is a weatherproof glass ball which concentrates sunlight and moonlight into an intense beam that can generate electricity up to 70% more energy than solar panels.

Look into the Future with This 'Crystal Ball' Spherical Sun Power Generator

Using the geometry and optical properties of a giant see-through ball, this solution acts like a giant magnifying glass to make power. According to their claim, it can reach efficiency level of

The Solar 'Magnifying Glass'--Spherical

Solar Collector

Shaped as a sphere that functions like a magnifying glass, this spherical solar collector concentrates the incoming diffuse sunlight on its surface through the spherical lens to a collector containing solar ...

Rawlemon's New Betaray Crystal Ball Harvests Light ...

The Betaray is designed to concentrate diffuse light and generate a powerful beam of solar energy.

Goodbye to solar panels, the future is these spheres: record power ...

The solar spheres we are talking about are called Rawlemon, a sphere-shaped lens that generates solar energy. It is 70% more efficient than conventional solar panels due to its system of ...
