

Czech republic electric vehicle policy

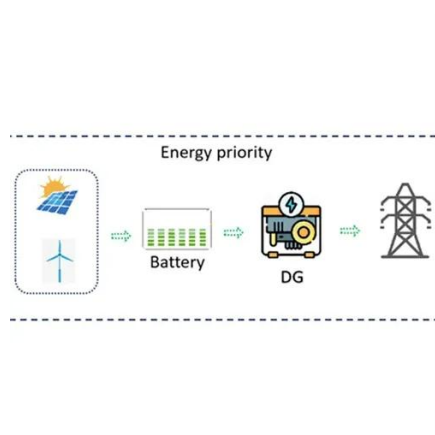

Overview

As of June 2022, the Czech government does not offer any tax incentives for individuals to purchase electric vehicles. [5] . The incentives and legislations section is updated for 2025, published on 18th April 2025, representing the situation as of that date. Incentives and legislation that aim to increase uptake of alternative. E-mobility is being discussed and has been at the core of several official programmes. Have you ever considered buying an electric car, but been put off by the expense of doing so?

Understandably, environmental concerns are often outweighed by the fact that for. The National Development Bank (NRB) guaranteed more than 1,770 loans under the Electromobility Guarantee programme, which enabled Czech entrepreneurs and companies to purchase more than 1,800 electric cars and 45 electric trucks. 1% of all vehicles in the country.
