

Daily power generation of Heilongjiang wind power

Overview

On October 24th, the reporter learned from the Heilongjiang Electric Power Company's Communication and Dispatch Center that on the day of October 18th, the daily generation of wind power generators of the Heilongjiang Power Grid reached 32. 211 million kwh, a record high. In recent years. This project has a total installed capacity of 200 megawatts. As one of the top 100 projects in the province, this project will have a positive and far-reaching impact on Zheng County's protection of the ecological environment, promotion of local. Heilongjiang Hegang Luobei Wind Power Project is an Onshore Wind project located in Heilongjiang, China. This marks the first successful launch of a full-capacity renewable energy project in 2025 for the SPIC Beijing Company.

Daily power generation of Heilongjiang wind power

Why "daily" and not "dayly"?

daily (adj.) Old English dæglic (see day). This form is known from compounds: twadæglic "happening once in two days," þreodæglic "happening once in three days;" the more usual Old ...
