

Danish single glass solar module price

Overview

Due to limited data availability, we use the Global Price Index series reported by IRENA, based on pvXchange benchmark prices for modules sold in Europe. Historical prices have been adjusted for inflation using the World Bank's US GDP deflator. The market encompasses several glass product types, including anti-reflective coated glass, tempered glass, and glass-glass modules, each offering different efficiency, durability, and cost profiles. Demand is segmented by application into standard PV modules for free-field and rooftop systems, and. Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market. Prices for TOPCon cells will be based on a 25. 0%+ efficiency due to production line optimization and efficiency improvement from October 23,2024. Data source: IRENA (2025); Nemet (2009); Farmer and Lafond (2016) - Learn more about this data Note: Costs are expressed in constant 2024 US\$ per watt.
