

# Delivery time of 2MWh photovoltaic container for hospital use

## Overview

---

How long does it take to manufacture and deliver a mobile PV container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. A complete 2MWh energy storage system + 1MW solar turnkey solution includes the following configurations: Optional solar mounts, PV combiner boxes, and PV cables. Equipped with rack-mounted modular PCS, which supports multi-machine parallel connection and has good scalability; the number of PCS. Polinovel utility scale energy storage battery system incorporates top-grade LiFePO4 battery cells with long life, good consistency and superior charging and discharging performance. Do you offer after-sales support. A: 3-5 working days for the items were in stock, 15-21days for the items out of stock.
