

Does photovoltaic panel installation need to be reported to the government

Overview

Yes, most solar panel installations require permits. Whether you're installing rooftop panels or a ground-mounted system, local building departments typically require permits to ensure safety, code compliance, and proper grid connection. Permitting and inspection are required before a solar array is allowed to produce electricity on the grid. The credit is not available for any property placed in service after December 31, 2025. However, there are specific exceptions and variations. Understand the solar panel permitting process from start to finish. Learn how proper approvals ensure your system is safe, legal, and correctly grid-tied.

Does photovoltaic panel installation need to be reported to the government
