

Dominica electric vehicles evs

Overview

In almost four years, at least 3,043 electric vehicles have entered national territory, according to figures from the Directorate General of Customs (DGA). In 2021, 679 entered, and in 2022. In mid-October, the government delivered 150 electric buses for school transportation. Onesimo González, director of the DR's Student Transportation System, says this first fleet of eco-friendly, electric school buses – which are equipped with GPS, 360-degree cameras, seatbelts, foldable STOP. There are also electric scooters, skateboards, bicycles and motorcycles – all transformative experiences and better for the environment and great options for private and public mobility. We highly recommend the “electric mobility” experience. “The tides are turning,” he says, adding that the middle class are growing more interested in these vehicles, not only as they are zero-emissions, but also because of. The Dominican Republic has made significant progress in the adoption of electric vehicles. This is detailed in the recent report of the National Statistics Office (ONE).
