

# Double glass and single glass in solar modules

**5** Years warranty

## Overview

---

Single glass solar panels are light and easy to put in. This makes them good for small jobs or if you have less money. The front cover of tempered glass, encapsulant material, solar cells, and a polymer. To make purchasing decisions a little more complex for solar panel buyers, there may be a conflict between single and double/double glass panels. So, which is better?

Back in November we checked whether bifacial panels were worthwhile for installation in residential buildings. Over the past decade, the PV industry has experienced a great revolution. The reason they are called monofacial is that 'mono' means single or one and.

## Double glass and single glass in solar modules
