

EU solar Energy Storage Project

EU solar Energy Storage Project

Key Projects, Initiatives and Market , JRC SES

Under the EU's flagship research programs, Horizon Europe and Horizon 2020, numerous energy storage projects are being funded to develop innovative, scalable storage solutions.

[EU launches real-time dashboard for energy storage expansion](#)

The goal is to list all planned and operational energy storage projects in Europe by location and technology. The dashboard can be filtered by country, project status and technology.

[The Future of Energy Storage in Europe: A Growing Frontier](#)

TotalEnergies and Canadian Solar are boosting the future of energy storage in Europe with major projects in Germany and the UK. As the European Union accelerates its transition to ...

[European Energy inaugurates Northern Europe's largest combined ...](#)

The project demonstrates European Energy's approach to enhancing asset value through storage integration and flexible system operation. The battery enables electricity generated during ...

[2025: EU Adds Record 27.1 GWh Of Battery Storage, Led by Utility ...](#)

The EU installed 27.1 GWh of new battery storage capacity in 2025, a new record year powered by strong utility-scale deployment, according to SolarPower Europe.

[Utility Projects Drive Record EU Battery Storage Growth \(PDF\)](#)

The 2025 market data underscores that battery energy storage systems (BESS) have solidified their position as the fastest-growing clean energy technology in Europe. This acceleration ...

[EU installs record 27 GWh of battery storage capacity in 2025](#)

Analysts at S&P Global Energy Horizon expect about 43 GW of utility-scale, front-of-meter batteries to be online across Europe by end-2026, led by the UK with almost 10 GW online by ...

The European Energy Storage

Inventory: A ...

This innovative tool systematically catalogs all energy storage projects within Europe, from the first planning phase to operational operation.

Application scenarios of energy storage battery products

New report: "EU energy storage action plan needed"

New analysis reveals another year of record installations for European battery storage, despite slower year-on-year growth, according to the latest European Market Outlook for Battery ...

[New report: EU installs 27.1 GWh of new batteries in 2025 as utility](#)

27.1 GWh of new battery capacity installed in 2025, marking the EU's 12th consecutive record year for battery storage deployment. 55% of all new capacity came from utility-scale systems, ...
