

Energy independence amman

Overview

(MENAFN - Jordan Times) AMMAN - Jordan's energy sector has made “remarkable” progress over the past two decades, thanks to strategic investments and policy reforms aimed at achieving energy independence and sustainability. Despite a major dispute in their past, Amman and Beijing are finding ways to cooperate effectively to increase Jordan's energy independence. Israel's war in Gaza has presented Jordan with a pressing conundrum. The resource-starved kingdom's lack of fossil fuels has long forced it to rely heavily on. At Amcell we are advancing renewable energy across the Middle East through innovation in solar, biofuels, and clean technology. Since His Majesty King Abdullah assumed his constitutional powers, the sector. Amman, Feb. 12 (Petra) -- Over the past quarter-century, Jordan has embarked on a strategic overhaul of its energy and minerals sectors, guided by royal directives and a vision for economic modernization. This period has seen Jordan navigate through its resource limitations to emerge as a leader in. We were amongst the first countries in the region to realize the importance of gradual diversification of energy sources to protect our country against fluctuations in international market prices, and thus entrench the sovereignty and stability of our economic and development-related. The Jordanian Ministry of Energy and Mineral Resources signed a strategic agreement today to establish the National Advanced Natural Gas Company (Watani), a joint venture between the Jordan Petroleum Products Marketing Company (JoPetrol) and the Jordan Liquefied Gas Company.
