

# Energy storage policy updates bulgaria

## Overview

---

Bulgaria's Ministry of Energy has approved €588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9. The final decision, announced on April 17, 2025, concludes a competitive selection process that began with 151 proposals in August 2024. The damage is such that repairs could hardly be made and it will probably be necessary to completely rebuild the power plant. As a possible reason, sources from "Capital" point to the lack. Bulgaria installed 1,416 MW of new solar capacity last year, extending its run of annual additions above 1 GW to a third straight year and raising total installed solar capacity to 5,984 MW, according to data from the ENTSO-E Transparency Platform. Growth was led by ground-mounted utility-scale. It is attracting significant interest from foreign and domestic companies alike. Substantial investment will be required, as the energy system transitions towards a more diverse energy mix, including high levels of renewable generation and new approaches to power system engineering and management. Kalina Trifonova, deputy chairperson of the management board at energy supplier EVN Bulgaria, elaborates on why she believes energy.

## Energy storage policy updates bulgaria

### [Battery energy storage systems The case of Bulgaria: recent ...](#)

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

### [Bulgaria Approves 4GWh Battery Storage Under RESTORE 2](#)

All supported battery energy storage facilities are required to be commissioned by July 31, 2026. Bulgaria currently has around 1.5 GWh of battery storage capacity in operation, while an additional 10 GWh ...

### [Contracts for 6,000 MWh of Battery Energy Storage Capacity Have Been](#)

The details of these contracts were clarified during a recent parliamentary committee hearing, where Energy Minister Zhecho Stankov provided updates on the project's progress and its significance for Bulgaria's energy ...

### [Bulgaria: Energy Storage as a Catalyst for a Changing Power Sector](#)

storage is hindering Bulgaria in the development of an energy storage market. Furthermore, Bulgaria's energy legislation and grid codes have been historically written with thermal plants in mind, especially with regards ...

### [Bulgaria finalises EUR600m funding for 10GWh of energy storage](#)

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into regional grids, evolving ...

### [Bulgaria Commits EUR600 Million to Nearly 10GWh in Energy Storage](#)

Bulgaria's Ministry of Energy has approved EUR588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. The final decision, announced on April ...

### [Energy Storage in Bulgaria Surges with 9.7 GWh Awarded Under ...](#)

As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in national priorities but also in regional energy dynamics.

### [Why energy storage is a non-negotiable](#)

## [strategic asset in Bulgaria and](#)

Kalina Trifonova, deputy chairperson of the management board at energy supplier EVN Bulgaria, elaborates on why she believes energy storage is no longer just a technological necessity - it is a strategic ...

## **Battery Energy Storage Systems in Bulgaria**

Explore Bulgaria's battery energy storage system (BESS) regulations, financial incentives and compliance with EU directives. Learn why Bulgaria is a growing market for energy storage investments.

## [Bulgaria: Solar boom continues as storage gains momentum and policy](#)

Bulgaria installed 1,416 MW of new solar capacity last year, extending its run of annual additions above 1 GW to a third straight year and raising total installed solar capacity to 5,984 MW, according to data ...
