

Estonia battery storage subsidy

Overview

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia. The JV between Estonian energy company Evecon, French solar PV developer Corsica Sole, and asset manager Mirova will develop the 2-hour duration systems, with. The largest battery park in continental Europe was opened in Kiisa, Harju County, on Tuesday, capable of serving 90,000 households. Developers say it will bring greater energy security in the wake of decoupling from the Russian BRELL grid last year, and connection to the continental European grid. The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. When it comes to energy, compact Estonia thinks big.

Estonia battery storage subsidy

[Largest battery park in continental Europe up and running in Estonia](#)

The largest battery park in continental Europe was opened in Kiisa, Harju County, on Tuesday, capable of serving 90,000 households.

[The construction of the largest battery park in Continental Europe](#)

According to Risto Virveste, the upcoming battery parks are an important step forward in ensuring supply security, especially considering the upcoming disconnection of Estonia and other ...
