

European solar power market analysis

Overview

The EU solar sector continues its upward trajectory, with mid-2025 figures confirming robust growth. SolarPower Europe's latest analysis highlights record installations, policy momentum, and the technology's central role in the continent's clean energy transition. Source: The EU Market Outlook for Solar Power: 2025 Mid-Year analysis is the first of our reports of its kind. As solar has become a major pillar of the EU energy transition, it's important to continuously feel the pulse. This publication marks a new addition to SolarPower Europe's solar and battery storage market outlook series. Starting this year, we will release this mid-year edition annually to provide a review of solar developments during the first half of the year, along with an updated forecast for the second. Markus Hoehner and Rajan Kalsotra, CEO and Senior Consultant at the Bonn-based EUPD Research, discuss the growth trajectory, challenges and opportunities within the EU solar PV market, focusing on policy support, pricing trends, module shipments and future projections. Avoided fossil fuel import costs due to.
