

Flywheel energy storage new energy industry analysis

Overview

The flywheel energy storage industry research report provides comprehensive data (region-wise segment analysis), with forecasts and estimates in "USD million" for the period 2026-2030, as well as historical data from 2020-2024 for the following segments. Flywheel Energy Storage Systems by Application (UPS, Electricity Grid, Transportation), by Types (Less than 500KW, 500-1000KW, More than 1000KW), by North America (United States, Canada, Mexico), by South America (Brazil, Argentina, Rest of South America), by Europe (United Kingdom, Germany. The global flywheel energy storage systems (FESS) market was estimated at USD 461.11 billion in 2024 and is projected to reach USD 631.19 billion during the forecast period. Critical imperative for grid inertia and microgrid resiliency will drive the flywheel energy storage market. North America dominated the market and accounted for a 38.
