

Free Consultation on Intelligent Photovoltaic Containers in Ireland

Overview

Solar Compare is Ireland's first free Solar PV advisory and comparison service. Book your solar installation now and we'll include two FREE premium panels and a FREE BER certificate, worth up to €1,000. We'll also support your SEAI grant application, which could provide up to €1,800 in government funding towards installation (subject to eligibility and approval). We provide high quality solar pv systems for homes and farms across Ireland. We also offer a solar survey to assess the maximum number of panels, orientation and expected kW power. Installing solar PV in your home will not only increase your BER rating but also make it more attractive to potential buyers by increasing the value of the property. Reduce your carbon emissions by 500kg per annum per 1 kWp installed, that's 15,000kg per 1 kWp over the lifetime of the solar PV. Solar Compare are not your average Solar Photovoltaic (PV) installer.
