

French flywheel energy storage company

French flywheel energy storage company

[Top flywheel energy storage companies, VentureRadar](#)

ENERGIESTRO is an innovative French company developing the technology of flywheel energy storage. Its main objective is to reduce the cost of storage, with battery technology is still too high.

[France Flywheel Energy Storage \(fes\) Vendor Selection Trends](#)

The France Flywheel Energy Storage (fes) Market is expected to witness sustained global growth driven by innovation, digitization, and emerging economy participation.

[Flywheel Energy Storage Manufacturers: 7 Leading Manufacturers](#)

Discover the top 7 flywheel energy storage manufacturers leading the global market with advanced technology and reliable solutions. Learn how these companies are shaping the future of ...

[Top 5 Advanced Flywheel Energy Storage Startups in 2025](#)

These startups have the potential to multiply, are in a good market position, or can introduce game-changing energy storage tech to the market in the next 2-3 years. This makes them a great option to ...

[Top 100 Flywheel Energy Storage Companies in 2026 , ensun](#)

The company is a global leader in energy storage and was one of the first to enter the battery storage market, highlighting its commitment to innovative solutions that enhance renewable energy ...

Flywheel Energy Storage Developers

Energiestro is a French company focused on innovative energy storage solutions within the renewable energy sector. The company's main offering is a flywheel made of prestressed concrete, designed to ...

[High-tension, vertical filament winding enables affordable flywheel](#)

French startup Energiestro's prototype solar energy flywheel-based storage system aims to reduce costs with glass fiber composites and prestressed concrete.

Revterra

Revterra's system stores energy through a spinning rotor, converting electric energy into kinetic energy and back when needed. Using magnetic bearings and steel alloys, we enhance efficiency and reduce ...

Levisys, High Technology Energy Storage

Founded in 2004 by two physicists, Levisys is a French company specialising in the design, development and manufacture of very high performance flywheels and electrochemical batteries, ...

Energiestro

ENERGIESTRO has been developing the technology of FLYWHEEL ENERGY STORAGE for several years, with the aim of reducing the high cost of battery energy storage, in order to increase the ...
