

Fund manager dismantles photovoltaic panels

Overview

SunPower has filed for Chapter 11 bankruptcy protection and plans to sell its assets. However, 2024 has brought immense challenges, with higher interest rates, tighter financing, and adverse policy shifts in key states contributing to over 100 solar bankruptcies based on our industry data, a number unseen before in our almost 20 years in the solar sector. California was particularly. After CBS News New York investigator Mahsa Saeidi helped get a New Jersey family's solar panels fixed, her inbox was flooded with similar complaints. The residential solar sector has been walloped as high interest rates have depressed demand, leaving companies with too. Retiree Frank Deni wanted to cut expenses at his California home in 2023 by installing solar panels., one of the largest US solar companies, which offered a 25-year “complete confidence” warranty. The solar industry. The following month, Complete Solaria acquired some key SunPower assets, including its brand name and trademarks, as well as its New Homes division and Blue Raven Solar. On April 21, 2025, Complete Solaria announced its plan to rebrand as SunPower. Though they share the same brand name, the.
