

How many storage cabinets can be placed in the window

Overview

Typically, keeping cabinets about three to six inches from window trim works well. This spacing respects the window's presence and allows room for practical details like outlets or plumbing. I don't have an answer, but a go-along question. How wide is the window?

Perhaps your KD is trying. Do you have walls that can support wall cabinets?

Is your kitchen open to the living room, limiting where cabinets can go?

What about natural light—are you trying to preserve a window view, which would cut into wall cabinet space?

Layouts like U-shape, L-shape, galley, or one-wall kitchens all come. These Are the Trends Designers Want to See You Use in the New Year When you purchase through links on our site, we may earn an affiliate commission. Place. Yes, you can put a cabinet in front of a window although it will depend on the size and shape of the window, the cabinet, and the available space.
