

How much does it cost to generate 5 kilowatts of solar power

Overview

On average, a 5 kW solar panel system costs \$13,550, according to real-world quotes on the EnergySage Marketplace from 2025 data. But your actual price will depend on factors like your roof's. Most homeowners spend between \$12,600 and \$33,376 to install a complete residential solar system in 2026, with the national average at \$19,873 before incentives. For 2025 completions, the 30 percent federal credit can drop net to \$8,750-\$12,250, and current law ends that credit after 2025.
