

How much is the UAE rooftop solar subsidy per panel

Overview

In Dubai, residential solar panels range from AED 2.5 to AED 4 per watt, depending on the quality and supplier. For homeowners, this means that a 1 kW system costs between AED 2,500 and AED 4,000, while a standard 5 kW villa system ranges from AED 12,500 to AED 20,000 before. The price of a solar panel for a UAE residence is mostly in single-digit figures, but do not overlook all components of the solar power dubai system. Extra charges may be applicable. Shams Dubai Calculator is a web application that enables customers and the general public to estimate potential electricity production and savings on electricity bill that can be achieved by installing solar panels under the Shams Dubai initiative. However, high initial costs (AED 30,000–350,000) can deter adoption. UAE solar government programs bridge this gap with subsidies, net metering, and green loans, reducing ROI. Most homes in the UAE install systems ranging from 4 kW to 12 kW. Prices have come down in recent years. I'll walk you through the basics, share some real-life examples, and help you understand what affects the price so you can make the best decision for your energy needs.
