

How to connect a DC meter to a photovoltaic panel

Overview

This explains how you can simply add two different types of meters to a solar power system to show the volts and amps of the system. 12 Volt battery systems should use a 15 Volt meter; 48 Volt systems should use a 70-75 Volt meter. Don't allow incoming power to exceed the rated amperage (or voltage) of your meter - it may break the unit. Use a DC. No description has been added to this video.
