

# How to remove the protective film on the surface of photovoltaic panels

## Overview

---

Solar protective film can be removed easily by following a few key steps: 1) Gather necessary tools including a utility knife, scraper, and heat source (such as a hairdryer), 2) Apply heat to loosen the adhesive, 3) Carefully peel the film starting from one corner, and 4) Clean. Solar protective film can be removed easily by following a few key steps: 1) Gather necessary tools including a utility knife, scraper, and heat source (such as a hairdryer), 2) Apply heat to loosen the adhesive, 3) Carefully peel the film starting from one corner, and 4) Clean. This temporary cover protects the glass during shipping and installation. You must remove it before activating your solar system. Why manufacturers add it: This shipping film is designed only for temporary protection and should be removed to ensure optimal performance once installation is complete. The film is designed solely for shipping and handling protection, and is not intended. If the film is stubborn or adhesive, use a mild solution of soapy water or isopropyl alcohol applied sparingly to loosen it, followed by a soft cloth to wipe away any remaining adhesive. Efficiency of a solar panel ranges from 15%.

## How to remove the protective film on the surface of photovoltaic pan

### Should I remove a plastic cover on a solar panel

To ensure that the film is removed there are two ways that this will be done . One way is incorrect removal that scratches the surface and leaves residues on it . Impact of these will also reduce the ...

### [How to remove the protective film on the surface of photovoltaic ...](#)

How do you remove film from solar panels? from solar lights,you will need to use a mild cleaner and a soft cloth. Start by wiping down the light with the cleaner and then gently rub the cloth in a circular ...

### How to remove the film on the photovoltaic panel

When you decide to remove the film, do so carefully by turning off the solar light, peeling it off slowly, and disposing of it responsibly to maintain the efficiency and longevity of your outdoor ...
