

# Huawei battery pack features

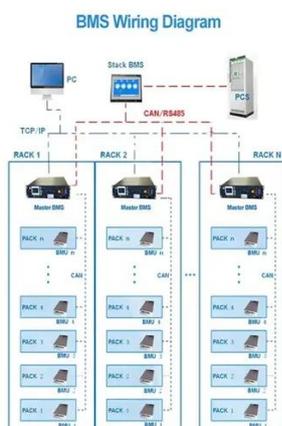

## Overview

---

With the new 5 kWh battery, you can now flexibly combine 5 and 7 kWh packs to unlock up to 9 capacity options, from 5 to 21 kWh. The actual capacity may vary depending on the environment conditions, such as temperature, transportation conditions, and storage conditions. The Huawei FusionSolar hybrid inverter The second-generation residential solar inverter was released in April 2020, only two years after the first version. The SUN2000-L1 series ranges from 2kW to 6kW and features 'dual MPPTs' with a wide operating voltage range of 120V to 600V. Storage system is ordered and delivered in the form of power module and battery module separately with corresponding quantity. The best Huawei battery for your smartphone or tablet should match your model exactly, offer genuine capacity (measured in mAh), and include. High Energy Density: Huawei batteries are designed with high energy density, allowing them to pack more power into a smaller space. No matter nights, rainy days or unexpected blackouts off the grid, the solar power is always at your request as a real bank.

## Huawei battery pack features
