

Industrial Solar Power Local Companies

Overview

The companies below are a segmented portion of the overall 2025 Top Solar Contractors List, organized by kilowatts (DC) installed in 2024. Get a free quote for your industrial solar solution today and learn how clean energy can benefit your company! At StraightUp Solar, we've been helping customers make the switch to renewable. SolarNow BV, founded in 2011, is a renewable energy solutions provider based in Millingen Aan De Rijn, Gelderland, Netherlands. With a strong operational footprint in East Africa. SOLV Energy delivers the large-scale solar and battery storage projects that keep these industries powered — on time and at massive scale. The listed kilowatts installed by each company on this Commercial Contractor list were only installed within the commercial market. The 2023 list reached 420 solar energy providers, including residential, utility, and commercial solar contractors. It's a lot to sort through, so we did a little digging to figure out which contractors are leading the pack. Businesses can reduce operating costs and achieve budget certainty while demonstrating a commitment to the environment with a solar PPA or EPC.
