

Latvian Bus Elevator Battery Energy Storage Station

Overview

Located in the Ventspils region, right next to the Targale wind park, the BESS project took about two years to be realised and will be connected to the Latvian electricity transmission system this autumn. The project cost EUR 7 million (USD 7.62m) and was financed with a loan from. On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region. Battery energy storage system (BESS) in Ventspils, Latvia.

[Latvian Grid Energy Storage Project: Powering a Sustainable Future](#)

Discover how Latvia's innovative energy storage initiatives are reshaping grid stability and renewable integration. This deep dive explores technical breakthroughs, market trends, and the strategic ...

[Largest battery energy storage system \(BESS\) in Latvia opened](#)

Renewable energy company Utilitas Wind has inaugurated the largest battery energy storage system (BESS) in Latvia to date, local media reported. Installed at the Targale wind farm in ...

[Latvia's largest battery energy storage system unveiled](#)

The largest energy storage battery system will provide energy storage to transfer the generated electricity to users when there is a shortage in the electricity system.

[Utilitas Launches Latvia's First Utility-Scale Battery Energy Storage](#)

Situated in the Ventspils region near the Targale wind park, the BESS project took approximately two years to complete and is set to connect to the Latvian electricity transmission ...

[Latvia's Energy Landscape Evolves with New Battery Storage Project](#)

Latvia has taken a significant step towards a greener future with the commissioning of its first utility-scale battery energy storage system (BESS). The 10MW/20MWh BESS, located in ...

Batteries , AST

In order to provide power reserves, with Decree No.674 of 24 September 2024, the Republic of Latvia's Cabinet of Ministers gave permission for AST to acquire, install and operate ...

[Large-scale battery storage for a stable Latvian power grid](#)

This makes the system one of the largest battery storage systems in the EU. The order also includes general contractor services as well as installation and commissioning.

[Major energy storage system installed in](#)

[western Latvia](#)

The project ensures that energy stored in the system can be dispatched in situations where the power grid is running out of electricity. In periods of high winds, when more power is ...

[Utilitas inaugurates 10-MW battery in Latvia , Energy Storage News](#)

Located in the Ventspils region, right next to the Targale wind park, the BESS project took about two years to be realised and will be connected to the Latvian electricity transmission system ...

[Latvia: first BESS opens ahead of Russia grid uncoupling](#)

In Latvia, developer Utilitas Wind announced the official opening of a 10MW/20MWh battery energy storage system (BESS) last week (1 November) in Targale, a village in Latvia's north ...
