

Mahe Solar Power Generation

Overview

In a significant leap towards a sustainable energy future, Seychelles has officially completed a new 10-megawatt (MW) solar farm on its main island, Mahé. This landmark project, brought to fruition with crucial financial support from the World Bank, marks a major milestone in the archipelagic. Paris & Mahé, August 20, 2025 - Independent renewable energy company Qair has secured a USD 5.7 million senior debt facility from the Facility for Energy Inclusion ("FEI"), managed by Cygnum Capital, to finance the development, building, operations, and maintenance of a 5.8 MWp Floating Solar plant.
