

N Djamena New Energy Photovoltaic Site

Overview

Abu Dhabi-based developer Global South Utilities (GSU) inaugurated the 50 MW Noor Chad solar plant in N'Djamena, the country's capital, earlier this week. The site features more than 81,000 solar panels and 158 inverters and also encompasses a 5 MWh battery energy storage system. The Noor Chad 50 MW Solar PV (Photovoltaic) Plant in N'Djamena, developed by Abu Dhabi-based Global South Utilities (GSU), will now provide clean electricity to 274,000 homes in the African country. It is also the first such renewable facility of this scale in this part of the world. Image. The proposed project concerns a EUR 18 million loan as well as a Partial Risk Guarantee (GPR), for the establishment of the Djermaya solar power plant in Chad. Djermaya Solar is a key building block of the Desert to Power Initiative and is of high strategic importance for Chad.
