

New budget proposals for four energy storage projects

Overview

The selected projects are the Energizar and Salt Cod developments of FlatIron Energy, the River Mill Storage project of Rhyndland Energy and the Trimount ESS scheme of Jupiter Power, DOER said on Friday. The bidders will now negotiate contracts with the Massachusetts energy. At various points, the 'One Big Beautiful Bill' (OBBB) included an elimination of investment tax credits (ITCs), a 60-day construction commencement requirement and other provisions that would have proved problematic for energy storage developers. In its final form, the OBBB Act largely maintains. Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk energy storage as part of New York's 6 GW Energy Storage Roadmap. Adding bulk energy storage to New York's grid will lower costs. Massachusetts Department of Energy Resources (DOER) has selected four energy storage projects totalling 1,268 MW under the state's first energy storage solicitation. Battery energy storage systems (BESS) License: CC0 1. has grown dramatically in the U. These projects will support DTE Electric's CleanVision Integrated Resource Plan and Michigan's new standard of 60% renewable.
