

# New delhi plans new energy storage industrial park

## Overview

---

The project, located at BSES Rajdhani's Kilokari substation, aims to enhance grid stability, reduce power procurement costs, and integrate renewable energy sources. The BESS, utilizing advanced Lithium Iron Phosphate (LFP) technology, sets a benchmark for future energy storage. NEW DELHI | 8 May, 2025 — The GEAPP Leadership Council (GLC) today officially announced the launch of India's first utility-scale, standalone Battery Energy Storage System (BESS) project, the largest of its kind in South Asia. Power minister Ashish Sood at the inauguration. (HT). As India's capital grapples with peak electricity demand exceeding 7,500 MW, the newly announced New Delhi Energy Storage Power Station project stands as a game-changer. This \$220 million initiative aims to deploy 500 MWh battery storage capacity by 2026, creating a blueprint for smart grid. Power Minister Sood inaugurated the system developed by BSES Rajdhani Power Limited at the 33 kV Kilokri Substation in New Delhi.
