

Norwegian commercial and industrial energy storage system

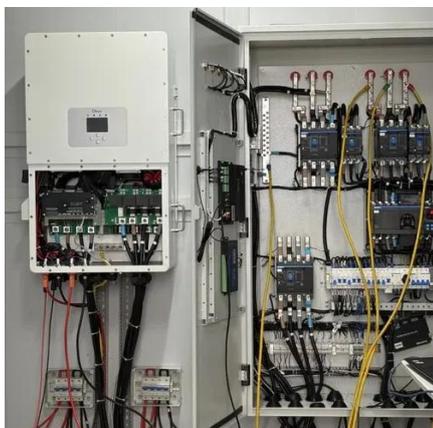

Overview

Norway is taking a historic step in the fight against climate change as the world's first full-scale value chain for carbon capture and storage (CCS) is now being launched. The Longship project marks a milestone in reducing industrial emissions – both in Norway and internationally. The Stars Series liquid-cooled ESS cabinets will be deployed at critical nodes of the Norwegian power grid to provide fast frequency response, peak shaving, and other essential grid-support services. Terje Aasland, Equinor, Shell, and TotalEnergies have made a final investment decision to move forward with phase two of the Northern Lights development. In August 2025, the first CO₂ volumes were injected and successfully stored in the reservoir. In August 2025, the first CO₂. The leading supplier of Energy Storage Systems for maritime, offshore Corvus Energy deploys large-scale energy storage systems (ESS) using advanced lithium-ion battery systems proven economical, safe, and reliable in a range of challenging maritime and transportation applications.

Norwegian commercial and industrial energy storage system

[Top 91 Energy Storage Companies in Norway \(2026\) , ensun](#)

Storage2power is revolutionizing energy storage with its innovative system that utilizes compressed air as a sustainable energy storage mechanism. Their technology integrates various energy sources, ...

[Norway Launches Complete Industrial Chain for Carbon Capture and Storage](#)

Norway has launched a major industrial project aimed at capturing, maritime transport, and geological storage of CO₂, mobilizing key energy players and significant public subsidies to ensure economic ...

[5 Top Energy Storage Companies in Norway · February 2026 , F6S](#)

Detailed info and reviews on 5 top Energy Storage companies and startups in Norway in 2026. Get the latest updates on their products, jobs, funding, investors, founders and more.

[Northern Lights CCS Project Advances To Phase 2 - ESG Review](#)

The Longship CCS Value Chain Longship includes capturing CO₂ from industrial sources in the Oslo-fjord region and shipping liquid CO₂ from these industrial capture sites to an onshore ...

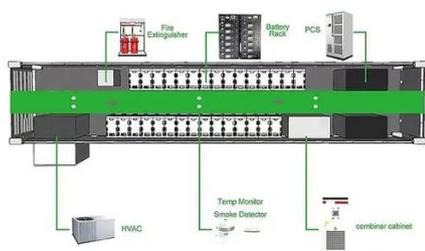

Norway: First CO2 storage in Northern Lights

The development of CO2 transport and storage services is one of the necessary levers for reducing emissions for European industry. Northern Lights has developed a strong customer base ...

Energy Storage Suppliers In Norway

Founded in 2009, Corvus Energy provides purpose-engineered energy storage solutions and hydrogen fuel cell systems for the ocean space. Since the start in 2009, Corvus Energy has been leading the ...

[Wenergy Secures Industrial Energy Storage Project in Norway, ...](#)

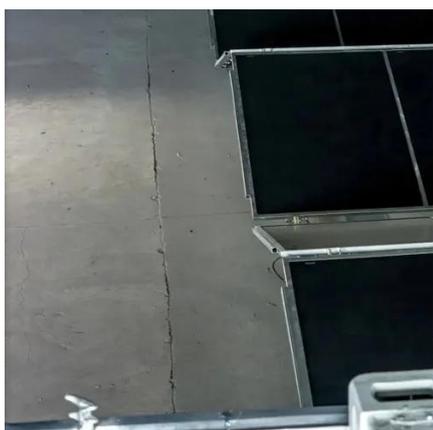

Wenergy has recently signed a new industrial and commercial energy storage project in Norway. The Stars Series liquid-cooled ESS cabinets will be deployed at critical nodes of the Norwegian power ...

[Longship goes into operation - A Global](#)

Breakthrough for Carbon ...

Norway is taking a historic step in the fight against climate change as the world's first full-scale value chain for carbon capture and storage (CCS) is now being launched. The Longship ...

World's First Commercial CCS Plant Owned by Shell, Equinor, and

Norway has opened the world's first commercial-scale carbon capture and storage (CCS) facility, marking a turning point in global climate action. The project captures carbon dioxide ...

The Northern Lights project

Northern Lights is the world's first cross-border CO₂ transport and storage facility. In August 2025, the first CO₂ volumes were injected and successfully stored in the reservoir. Carbon ...
