

# Off-grid energy storage bulgaria

## Overview

---

Bulgaria's Ministry of Energy has approved €588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9. The final decision, announced on April 17, 2025, concludes a competitive selection process that began with 151 proposals. Without battery energy storage systems, the transition to a net-zero economy will be technically and economically unfeasible says Kalina Trifonova of EVN Bulgaria. Kalina Trifonova, deputy chairperson of the management board at energy supplier EVN Bulgaria, elaborates on why she believes energy. rofit from the experiences of other energy systems with high renewable shares. However, new national legislation as well as funds provided through the European Union's Recovery and Resilience Facility (RRF) could add another 1 GWh of storage capacity over the next two years.
