

# Panama colon energy liquid cooling solar energy storage cabinet system manufacturer

## Overview

---

On October 18, 2024, a 372kWh liquid cooling battery energy storage system (BESS) was successfully installed in Panama. North America leads with 42% market share, driven by corporate sustainability initiatives and tax incentives that reduce total project costs by 18-28%. GSL Energy, a China-based manufacturer specializing in energy storage solutions, purchased the system. This installation serves as a model for future projects aiming. With Panama aiming to achieve 70% renewable energy generation by 2050, this initiative demonstrates how solar power integration with cutting-edge storage solutions can address energy reliability concerns while supporting economic growth. Split design concept allows flexible installation and maintenance, modular design concept is easy to integrate and extend. The gy systems to optimize power usage.
