

Philippines Energy Storage Power Station Project

Overview

MANILA, Philippines — Filipino-Korean firm Coheco Badeo Corp. is finally pushing ahead with its proposed P64. 3-billion pumped-storage hydroelectric (PSH) facility in Benguet, a project long delayed by the pandemic. These enormous "super batteries" (we're talking Battery Energy Storage Systems, or BESS) chilling right next to roaring hydroelectric turbines in Benguet's misty mountains. The 500-megawatt Kibungan PSH Power Project is planned along the Amburayan River in Benguet. SN Aboitiz Power (SNAP) has reached financial close for two new battery energy storage system projects in Benguet, marking another step in the company's push to scale flexible capacity as the Luzon grid grapples with rising renewable energy penetration. The country's first 'baseload' power plant to combine solar PV and battery storage officially went into action. Citicore Renewable Energy's Citicore Solar (CS) Batangas. ceremonially led the energisation of Citicore Renewable Energy's Citicore Solar (CS) Batangas.
