

Photovoltaic panels installed by disabled people

Overview

If you have some form of disability you could be eligible for a grant that will help you get solar panels fitted at your home. This is a question that could be asked of utility companies, or solar panel manufacturers and/or installers. Some may also be participating in demonstration programs and offer special deals for those who want to share in those kinds of programs. - The Energy Department has compiled a comprehensive. GRID Alternatives' Energy for All program makes solar power accessible to families who need the savings most, while providing hands-on solar installation experience to volunteers and job trainees. SANA provides financial assistance in the form of grants and incentives to gain access to solar installations to single-family, multifamily, and community solar.
