

Photovoltaic panels on the roof of the ancestral house

Overview

Panel Design: Traditional solar panels can look out of place on historic roofs. You may be considering the option of adding a solar energy system to your home's roof or finding another way to harness the sun's energy. Consider these. Even the White House features solar panels. If such a prominent historic site can incorporate solar, your property owner options are likely broader than you imagine. But, installing solar panels on historic or protected buildings presents a unique set of challenges that go beyond typical solar installations: **Preserving Aesthetic Integrity:** Maintaining the visual character of historic structures is important.

Photovoltaic panels on the roof of the ancestral house
