

Photovoltaic panels on top of cargo box

Overview

In this video I go over how and why I mounted my 100-watt solar panel to the rooftop cargo box (car top carrier) on my RAV4. Solar panel on top of a roof rack cargo box?

Has anyone attached a solar panel on top of a cargo box on their roof rack?

I was looking at flexible panels thinking they could bend over the cargo box and be pretty discreet, but it looks like the bigger panels only flex in the one direction, meaning. My online store: <https://kamchatkagear>. more My online store: <https://kamchatkagear>. I need to mount a 90 watt 58" long x 13. There is a curve along. This innovative system merges a robust rooftop cargo platform with high-efficiency solar technology, enabling users to haul gear and harness sunlight simultaneously. Designed for durability and adaptability, it caters to adventurers who refuse to compromise between storage and sustainability. Currently I only put the panel out when needed but would like a more permanent solution without sacrificing space on the roof.
