

# Price of 5kW solar power generation

## Overview

---

In 2025, a 5 kW solar panel system costs around \$13,550 before incentives, based on real installation data from across the country. But your actual price will depend on factors like your roof's complexity, local labor costs, the equipment you choose, and what incentives are. A 5 kilowatt (kW) solar panel system can help power your home while reducing monthly utility costs. Significant Cost Reduction in 2025: With. A 5-kW residential solar array is the entry point for many small to average homes that want to offset a meaningful share of daytime use without covering every inch of roof. Installers quote two ways, price per watt and an all-in turnkey total that bundles gear, labor, permits, overhead, and margin. The 5kW solar system, which offers optimal capacity and efficiency, is well-suited for medium-sized properties.
