

Price of solar panels installed on roof

Overview

Rooftop solar installation typically costs about \$23,100, with most projects ranging from \$19,100 to \$23,800 depending on system size and location. Under current federal law, the Residential Solar Tax Credit (ITC) ended for customer-owned systems on December 31, 2025. Homes with unshaded, south-facing roofs produce more electricity per panel, meaning you can use fewer panels to meet your energy needs — lowering overall costs. “The worst place would be to install on north-facing roofs, especially if those roofs have a high pitch,” Flores said. Check with a local pro for your specific job. System size, panel type, and labor needs are the biggest cost drivers.
